

### Testimonials

The following are a selection of unedited testimonials supplied by clients of Liquid Jigsaw:

---

“Computer and People Support Ltd’s one to one computer training business requires practical, useful and accessible information. The Internet is the most obvious way to provide this information.

Liquid Jigsaw is responsible for the successful design of the web site and also for the ongoing maintenance and updating of it.

I have been very impressed with the work done and would not hesitate to recommend Liquid Jigsaw to anyone lucky enough to come into contact with the company.”

Cherith Hateley  
Director, COMPUTER & PEOPLE SUPPORT LTD

"We have worked with Liquid Jigsaw for more than 6 years, and regard them as a key partner in our multimedia team for the development of both animations and graphics. A key element of this partnership has been their ability to interpret and build on at times only the flimsiest of briefs. By engaging with the complex medical or scientific content, the work of Liquid Jigsaw reflects a genuine understanding of the issues. They have also developed and then implemented a house style for animations which was sympathetic with, but went beyond, our existing interface designs. Throughout this partnership, they offer creativity, hard graft and flexibility - combined with top-level artistic and technical skills.

A particular strength of Liquid Jigsaw for us and our clients has been the development of animations that make complex biological or lab processes simple and easy to understand. In our experience as educators, this makes learning for the users both fun and more efficient.

All this work has been performed to the highest standards, to the great satisfaction of prestigious and demanding international clients (e.g. Imperial College London, Open University).

Animations and graphics which have been created by Liquid Jigsaw in partnership with Wellcome have also been endorsed by the World Health Organization, and WHO regularly include such work on their websites. This had led to requests for use of the materials by teachers, researchers and other healthcare professionals from all over the world. In many cases these are unique offerings that are not available anywhere else.

I would unhesitatingly commend Liquid Jigsaw to anyone looking for a graphics, web or animation provider who combines efficiency and value-for-money with creative work to the highest standards."

"We have been delighted with the work Tania at Liquid Jigsaw has done for us at the GEB. Not only has she worked on numerous clients sites but she runs our web design courses which always get excellent evaluations, and has produced some of our internal sites. Tania is a talented, creative designer who builds up a relationship with her clients and works closely with them to make sure that they have a site that reflects their ideas in a professional way."

Deidre Aley  
IT Manager, GREENWICH ENTERPRISE BOARD

"Thank you so much for creating such a wonderful site for both my glass work and Studio 202 courses. In each you have managed to create the exact image that I wanted to project and formed a very visual yet usable site. I have had many compliments about my glass website and as the main marketing tool for my work, it has already proved invaluable. Thank you also for being so responsive. You made the whole process extremely painless!"

Emily Bellhouse  
SERENDIPITY GLASS/ STUDIO 202

"Tania was easy to work with she works fast and is very skilled at her job and knowing what some people spend on websites only to end up unhappy with the results I think I may well have struck gold. She was not only good at her job the speed at which she did it and the caring attitude left me confident and happy. So many people have commented on the high quality of my website from galleries to individuals.

If you are considering anyone then I can recommend Tania for many reasons and I am happy to put my name to that 100%."

“I was impressed and delighted with the creation of my website by Liquid Jigsaw. The layout is just as I imagined it. The colours used are just right. Any updates are completed speedily. The feedback I get from clients is very positive - it’s easy to navigate & already it is attracting more potential clients. I have no hesitation in recommending this company.”

---

"I was very pleased with the clarity, colours and design and layout of my website.

I have had commissions from USA and Canada and people from Switzerland and Italy have come to do workshops with me because they have seen my website.

Tania was helpful and approachable which was important as I had very little experience of computers when I was doing my website."

Lauren Shanley  
TEXTILE DESIGNER

---

“Having met Tania prior to having website designed I knew she was a decent person and having a sense of that when you are going to employ someone or buy something from someone is important, very important.

I needed a website and once I saw what she could do and knowing she would work hard I knew my money would be well spent with her and that proved to be so.

I'm really pleased with the web-site that Tania from Liquid Jigsaw produced for me. The layout is simple but effective and I've had numerous comments as to how good it looks.”

"It has been a pleasure working with Liquid Jigsaw over the years we have been establishing our business. They really listen to what you want, then improve on it ten-fold. They have been pivotal in developing our corporate image, providing us with a website, logo, CD designs, fliers and stationery that clearly and stylishly represent our company. They have provided us with a highly professional service while remaining friendly and approachable."
